

# Accessibility tips for Rise 360

Some of our materials (such as our Data Skills Modules) have been created using [Rise 360](#), an online course authoring tool that is part of Articulate 360.

We have aimed to make these materials as accessible as possible. Please see below for some tips about accessibility.

Please contact us via [help@ukdataservice.ac.uk](mailto:help@ukdataservice.ac.uk) or [comms@ukdataservice.ac.uk](mailto:comms@ukdataservice.ac.uk) if you have any questions or comments about the accessibility of these materials.

## Videos and images

The videos in these modules have been recorded as high definition and can be viewed in the module or in YouTube. Controls at the bottom of each video allow you to do the following:

- show captions
- show the video in full screen
- change the quality of the video (use the cog icon)
- play the video in YouTube.

We have included alt text (alternative text) with images. Where the image is decorative or does not add to the information in text, we have indicated this by including null alt text.

## Keyboard navigation

You can use keyboard navigation when using this module.

[Go to the article about how to use keyboard navigation on the Articulate 360 website](#) (last updated 24 January 2024).

## Using a screen reader with these materials and supported browsers

Rise 360 courses work with the latest versions of NVDA, JAWS, VoiceOver, and TalkBack in supported browsers.

## Browsers for viewing Rise 360 courses

You can view courses on any devices that support these browsers. This includes mobile devices such as iPhones, iPads, and Android-enabled phones and tablets. The supported browsers for Windows, Mac and Mobiles are listed below, or you can see the article

about '[Browsers for viewing Rise 360 courses](#)' on the Articulate website (last updated 24 January 2024).

## Windows

- Google Chrome (latest version)
- Microsoft Edge (Chromium-based, latest version)
- Firefox (latest version).

## Mac

- Google Chrome (latest version)
- Safari (latest version)
- Firefox (latest version).

## Mobile

- Safari in Apple iOS/iPadOS (latest version)
- Google Chrome (latest version) in Apple iOS/iPadOS (latest version)
- Google Chrome (latest version) in Android OS 6 or later.
